

Cleaning Protocols at Rocking R Guest Ranch

We have lots of space and fresh country air at the ranch. You will have your own private cabin so no need to worry about social distancing. Everything will be sanitized prior to your arrival and the cabins will have antibacterial soap and hand sanitizer. Your breakfast will be prepared and delivered with food safe gloves and we will socially distance ourselves from you or we can leave your breakfast tray on the deck of your cabin and you can place it back on the deck when you are done. If you do not wish to have daily housekeeping services we will respect your wishes.

In addition, we have implemented the following cleaning protocols:

- Performing extra disinfection of frequently touched items like light switches, door handles, keyless entry pads on exterior doors, TV remotes, and thermostats
- Running all dishes and coffee making equipment through the dishwasher on a sanitize cycle
- Removing pen, paper, magazines and guest directory from the guest cabins
- Cleaning of exterior hot tub surfaces after use by guests. There is no evidence that the virus that causes COVID-19 can be spread to people through the water in pools, hot tubs, spas, or water play areas. Proper operation and maintenance (including disinfection with chlorine) of these facilities should inactivate the virus in the water.
- All linens will be washed with bleach and will go through a steam cycle as well.
